About

Industrial Engineering and Management student with a background in computer science and hands-on experience in AI and software development. I enjoy solving complex problems and building technology that has a clear purpose.

Education

M.Sc. Industrial Engineering and Management

Expected June 2029

Linköping University

- Relevant Coursework: Mathematical Statistics, Optimization, Economic Analysis, Industrial Economics

Exchange Semester

2026

Edith Cowan University

Perth, Australia

- Relevant Coursework: Artificial Intelligence

Higher Education Diploma in Computer Science (Full-Stack Development)

Graduated August 2024

Mid Sweden University

Professional Experience

Forward Deployed AI Engineer Intern

Jul 2026 – Aug 2026

Nordic Capital

Stockholm

- Worked within Nordic Capital's AI Task Force across the Stockholm and London offices, helping translate reporting needs into a firm-wide AI solution for a recurring process involving large amounts of data.
- Built a backend and UI for previewing source data, tracing where information came from, generating analyses and producing PowerPoint output used in board-level presentations.
- Tested and evaluated different LLM-based and agentic approaches using AI SDKs, tool integrations and OCR, reducing a process that previously took weeks to hours or a single day.

Software Developer

Apr 2025 - Present

Skymaker AB

Linköping

- Built a Shopify integration that lets customers use DynaMaker's visual product configurator directly in their online stores, reducing the need for custom implementations.
- Built 3D configurator logic for customer projects, including product rules and automatic generation of quotations, technical drawings and brochures to reduce manual work.

Board Member, Technology Council

Nov 2024 – Present

Sveriges Ingenjörer

Linköping/Stockholm

- Served as Lead Coordinator for Student Ambassadors until Jul 2026, leading a five-member team and achieving a 72% conversion rate during a record recruitment year.

Finance Assistant

Jan 2025 – Jun 2025

Solann AB

Remote

- Managed bookkeeping, invoicing and financial reconciliations while working with the CEO and Head of Finance.

Leadership & Activities

- **I-sektionen Honorary Award (2026):** Recognized for contributions to the student section, including independently developing an internal mobile application for events, bookings and student information.
- **Chairperson & Vice Chair, Webgroup (2024–2026):** Led an eight-member team responsible for developing and maintaining digital solutions for I-sektionen.
- **Elite Alpine Ski Racing, Team Bauhaus (2021–2024):** Competed at international level alongside university studies.

Technical Skills

AI & Data: Generative AI, LLMs, AI Agents, Agentic Workflows, Mistral OCR, SQL, Azure, MinIO, OAuth

Development & Tools: TypeScript, JavaScript, C#, Node.js, React, .NET, REST APIs, Git, AI SDKs, Excel, PowerPoint
